General Insurance Agency, Inc.

FOR IMMEDIATE RELEASE

## **ARROWHEAD'S COMMERCIAL AUTO PACKAGE POLICY FOR CONTRACTORS**

**San Diego, CA, 12/07/2007** – Arrowhead General Insurance Agency, Inc. has announced a new package policy program to write Contractor's Commercial Auto as part of a package with General Liability, Property and Inland Marine products. This program is available in Arizona, California, Nevada, Oregon and Washington.

Highlights from the Auto Package Policy for Contractors include additional discounts ranging from 5% to 15% for auto liability and physical damage coverage. Discounts are based on the number of additional lines added to the Commercial Auto policy. Package discounts are in addition to experience or schedule rating modifications for risks that qualify.

The new Auto Package Policy is written as a single policy. Contractors' risks that are not eligible for our general liability coverage may still be written as a package with discounts applied to the Auto policy by adding companion Property and /or Inland Marine lines of business.

Additional enhancements to the Arrowhead Commercial Auto Program include eliminated driver surcharges for accidents or moving violations and a revised schedule rating plan that allows modifications based on employees' driving records. Eligibility for experience rating was also revised from six to five or more power units.

For more information or to find out how to become an Arrowhead producer with access to these products, please contact Jill McEntire at 800.903.5489 x8426 or Carrie Allen at x8439.
