PRODUCER RELEASE

ARROWHEAD® ANNOUNCES FIREMAN'S FUND® AS ITS NEW CARRIER FOR ITS PUBLIC ENTITY PROGRAM

San Diego, CA, April 2007 – Effective April 1, 2007, Arrowhead General Insurance Agency, Inc. is providing significant enhancements to their Public Entity Program through a new relationship between Arrowhead's Public Risk Division and Fireman's Fund Insurance Company.

"It is an honor to present solutions from Fireman's Fund to our producers and their public entity clients," said Joel Hirsch, president of Arrowhead's Public Risk Division. "They need the stability that Fireman's Fund has committed to provide."

By combining Arrowhead's specialized public entity underwriting experience with Fireman's Fund's long history of commitment and financial strength, we are both pledging to provide superior and reliable products to our independent producers and their clients in the public sector.

Benefits of the program include enhanced coverages tailored to the specific needs of public entities and superior online management reports and analyses that will help control risk by identifying loss exposures. Additionally, the program will provide professional risk management services and significant product features, including separate aggregate umbrella limits that apply per policy (type of coverage).

"We know public entities place value in services, loss control and tools to manage the risks local governments face," said Sharon Wright, senior vice president of Arrowhead's Public Risk Division. "Arrowhead has always sought to partner with the most comprehensive, innovative and responsive insurance companies that best meet those needs and Fireman's Fund is that kind of insurance company."
