

## Ambulance Insurance Program (AIP)

This program's target is directed towards for-profit emergency and non-emergency medical ambulance companies operating Type I, Type II, or Type III with some flexibility towards Ambulettes or passenger/wheelchair vans used for paratransit if less than 20% of total operations. Our unique product creates a more stable, long term market that is more sensitive to real variance in risk which enables us to offer competitive pricing. We have the ability to offer a full package in a single product.
