

# Success List by Industry Segment

CODE	DESCRIPTION	PRIMARY CLASS CONDITIONS	QUICK QUOTE CONDITIONS
<b>CONTRACTORS</b>			
<b>Industry Conditions:</b> Height Exposure above six feet must have a formal Fall Prevention Program in place • Depth/trench work greater than four feet requires shoring; employees must be trained/certified • If employees build/construct their own scaffolding it must be less than 10% of total exposure and must have OSHA certified "competent" person(s) on staff - this does not include rolling scaffolding • Applications with a welding exposure must complete the Welding Supplemental Application			
<b>Quick Quote Industry Conditions:</b> No depth exposure greater than four feet • No scaffolding construction, set-up or take-down (other than rolling scaffolding for interior work only) • No welding operations greater than 10% of total operations			
5140/5190	Electrical wiring	Must have class C-10 or B License • No chandelier work or BX type installation • Incidental solar work may be considered given there is no installation of panels (hooking up wires would be acceptable)	No light pole work • No solar installation
5183/5187	Plumbing	Must have C-36/38/20 or B contractor license • No sewer cleaning except residential • No boiler work or steam pipe exposures • Incidental solar work may be considered given there is no installation of panels (hooking up wires would be acceptable)	No solar Installation • No Freon recovery or removal work
5185/5186	Automatic Sprinkler Installation	Height exposure less than 24 feet (may consider height exposures up to three stories)	Must have C-16 or B license • Minimum 3 years prior workers' compensation coverage • Qualified risks no less than \$2,500
5201/5205	Concrete/Cement Sidewalks	Must have class C-8 or B license • No caisson or shoring performed • Incidental pressure washing may be considered if ground level only	No pressure washing of concrete sidewalks
5403/5432	Carpentry	Must have C-5 or B license • No roofing or dock building • Less than 10% exterior framing	No wrecking, building demolition, or debris removal (other than light demolition related to remodel/repair projects)
5446/5447	Wallboard Application	Must have class C-9 or B license • Formal respiratory program required	No wrecking, building demolition, or debris removal (other than light demolition related to remodel/repair projects)
5474/5482	Painting	Must have C-33 or B license • Formal respiratory program required • No chimney sweeps, tank cleaning or painting • No sandblasting • No water proofing greater than 10%	No exterior painting greater than 50% of exposure • No building exterior steam cleaning or power/pressure washing above ground level • No work with lead paint abatement, chimney sweeps, epoxy floor covering or painting directional lines on highways or parking lots
5484/5485	Plastering or Stucco Work	Height exposure less than 24 feet	Must have C-35 or B license • Formal respiratory program required
5538/5542	Sheet Metal	Must have class C-38 or B license • No class C-43 license • No gutters, flashings, or sheet metal roofing operations	No solar Installation • No Freon recovery or removal work
5506/5507	Street/Road Paving	Must have class C-12 or B license • Private roads and parking lots only • No highway/freeway/interstate work	Not eligible for Quick Quote
5027/5028	Masonry	Must have C-29 or B license • No cesspool work • No stone cutting	No work with blast furnace lining repair, boiler, baffle and fire brick installation, cesspools or septic tanks
5107	Door/Window Installation	No overhead or mechanical doors • No glass work not pre-glazed	No work above first story
5146	Cabinet, Interior Trim Installation	Must have C-6 or B contractor license • No theatrical scenery/exhibition/convention work	No interior installations greater than 15 feet • No exposure to setting up or taking down equipment for exhibitions, trade shows or conventions
5348	Tile, Stone, Mosaic or Terrazzo Work	Must have class C-54 or B license • No dedicated stone cutting/polishing/bathtub refinishing (class code 1803)	No work with wrecking, building demolition, or debris removal (other than light demolition related to remodel/repair projects)
6218/6220	Excavation	Must have C-12, A or B License • No traffic control	No hillside grading or excavation • No caisson or shoring work
42	Landscape Gardeners	No tree trimming off ground • No median or shoulder work along highways/freeways/interstate	Mow and blow (light exposures)

# Success List by Industry Segment

CODE	DESCRIPTION	PRIMARY CLASS CONDITIONS
<b>AUTOMOTIVE SERVICES</b>		
3821	Auto Dismantlers	No auto-stacking more than two vehicles high • No delivery • No accident scene recovery • No guard dogs on premises
<b>CONSTRUCTION</b>		
5606	Contractors Executive	Application must describe how the risk qualifies
9015	Building Operations	No crime scene clean up • No attendants to park cars
9403	Street Sweeping	Private parking areas only
5102	Iron/Steel Erection	Height exposure less than 24 feet
6400	Fence Construction-metal or wood	Height exposure less than 24 feet • No work along highway (including installation of guardrails, median work or on-ramps and off-ramps) • Qualified risks no less than \$5,000
<b>HABITATION</b>		
9011	Apartment Operations	No apartments that are primarily for low income • No building site clean-up • No crime scene or accident clean-up • No major repair work (i.e. roof or gutters)
9008	Janitorial	No exterior cleaning or window washing greater than 24 feet • Eligible risks available for instant online quote. Primary quick quote conditions include: • No exterior window cleaning above first story or off ground level • No work with exterior building steam cleaning or power/pressure washing • No window cleaning/washing greater than 25% of operations
<b>MANUFACTURING</b>		
3040	Iron Works	No sheering and flame cut machinery
3066	Sheet Metal Products	No installation, crane, and/or smoke stack manufacturing
3146	Hardware Mfg.	No forging, die casting, and/or sand investment casting • No heat treating metals
3632	Machine Shops	No stainless steel welding
4495/4496/ 4497/4498/ 4499	Plastic Mfg.	No work with fiber glass materials
2812	Cabinet Mfg.	Spray containment and respirators utilized for painting • Eligible risks available for instant online quote. Primary Quick Quote conditions include: Maximum weight of product cannot be greater than 40 lbs • No driving operations greater than 25% of total payroll
<b>MERCANTILE</b>		
8018	Stores Wholesale	No fertilizer dealers, secondhand/used merchandise, 24 hour operations and/or tobacco products
8017	Stores Retail	No fire arms sales greater than 15% • No thrift stores, street vendors, dollar stores, washroom attendants, pawn brokers and/or laundromats
8850	Check Cashiers	No 24 hour operations or open past midnight
8264	Recycling Collection Center - Bottles Only	Need formal lift safety program
8265/8500	Iron/Scrap Dealers	No battery salvaging and/or junk dealers
<b>TRANSPORTATION/DELIVERY</b>		
7232	Mail Delivery	No two wheel vehicle/pedestrian delivery • No hazardous materials • No delivery greater than 100 miles • No express delivery
7198	Parcel Delivery	No two wheel vehicle/pedestrian delivery • No hazardous materials • No delivery greater than 100 miles • No express delivery
7219	Trucking (short haul only)	Less than 200 mile radius • Must have less than 5% use of owner operator • No more than 20% drop off/pick up along highway of sand and gravel • No express companies or mobile cranes
