

Free & Easy

CURB YOUR EMPLOYEE VEHICLE ACCIDENTS WITH FREE ONLINE DEFENSIVE DRIVER TRAINING

Arrowhead's Automotive Aftermarket program is helping you put the brakes on rising commercial auto rates with eDriving's **One More Second**® online course.

Use it as:

Orientation training for new hires

Refresher training for experienced drivers

Targeted training for high risk drivers

DEFENSIVE DRIVING COURSE

Your employees will appreciate a fast-paced, two-hour training with full-motion video hazard exercises and eight interactive modules. This isn't your typical "watch a slideshow and answer questions" like most defensive driving classes. Plus, eDriving handles all the tracking and reports, making it easy for you to see who's completed the course and who hasn't.

The course is designed to increase driver awareness and help combat aggressive and distracted driving which has reached unprecedented levels:

- Nearly 80% of drivers reported that they have experienced anger, aggression and even road rage while driving. (AAAFTS)
- Every day in the U.S. alone, over 8 people are killed and 1,161 injured in crashes that involve a distracted driver. (NCSA)
- Just adding **one more second** to your standard following distance can reduce the likelihood of a collision by up to two-thirds.

The goal of **One More Second**® is to equip drivers with tools to manage their emotions and choices before they lead to destructive actions.
