

Dear Dhara and Team,

At the end of 2017, you decided to be part of ending the water crisis by making a substantial investment in charity: water's work in Uganda. The impact you have as a Water Project Sponsor is truly transformative, and we are celebrating with you today as you learn more about the work you've made possible!

100% of your generous donation funded one Well With a Hand Pump for people living in the Bugiri and Namayingo Districts of Uganda.

Thanks to you, we're one step closer to making sure that every single person on the planet has access to clean and safe water. Your donation was part of a \$1,501,404.79 commitment that funded 156 projects and brought clean water to 55,805 people!

To ensure the long-term sustainability of the projects you've funded, our local partner, GOAL, has developed a rigorous procedure for implementing water points. This procedure ensures that water projects are constructed with technical excellence and the ability to withstand Uganda's complex conditions, including low pH and low water tables.

It's an honor to present you with this Completion Report. In my role as a Water Programs Manager at charity: water, I oversee our partnership, implementation strategy, and commitments in Uganda. It has been an immense privilege to witness how life-changing clean water is for those in need. You are bringing our mission to life and giving hope to so many. Thank you for your overwhelming generosity.

Sincerely,

Julia Gallus

Water Programs Manager, charity: water
